Dear Sir:

Please cancel claims 2-25.

Please add the following new claims:

add B1 C1  
--26. A method for sealing a manhole riser of the type having a top adjusting rim and a bottom adjusting rim, the manhole riser having a height defined from the base of the bottom adjusting ring to the top edge of the top adjusting ring, said method comprising the steps of:

(a) providing a band of elastomeric material, said band having a height at least equal to the height of the manhole riser;

(b) placing said band over the manhole riser and positioning the bottom edge of said band proximate the base of the manhole riser and securing a top edge of said band to the top adjusting ring of said manhole riser, wherein said band includes
